

CAEMBA builds dreams and dignity for those who need it most

Through CAEMBA we build dreams, dignity and hope.

All our efforts are aimed at providing a decent roof to low-income families and those in vulnerable situations, thus giving them an opportunity to grow and prosper. We also offer vocational training courses for women that are beneficiaries of CAEMBA, at our Women's Entrepreneurship House, in Atacames. In this way, we close the circle of poverty, by working comprehensively.

From April 2016 to June 2023, CAEMBA has produced and built:

- 379 temporary shelters for earthquake victims.
- **556 bamboo houses.**
- 30 school classrooms.
- 10 temporary children's centers that operated up to 1 year after the earthquake. ●
- 2 health centers, one dedicated to hospitalization of Covid-19 patients.
- 11 community centers, including the Women's Entrepreneurship House and the "Belleza en Bambú" Hair and Beauty Salon.

Companies that have supported the project:

Business coaching: participate with your company

At CAEMBA we build dignity and the dreams of those who need it most. That is why we invite you to be part of our business coaching program, which consists of raising funds for the construction of one or more CAEMBA houses. Also, we invite the executives and staff of the company to participate in the construction. This strengthens empathy, solidarity, teamwork and a sense of belonging to your company or organization. We encourage you to join this great mission against precarious housing in Ecuador!
